Web Developer

Skills:
CSS/SASS, JavaScript, TypeScript, React, Redux, Next, HTTP, REST, Express, MySQL, Webpack.
Git. English — intermediate.

Hello, I am Sergey. I am interested of new role of frontend developer. I studied web development and also computer architecture, operating systems, computer networks, algorithms and data structures. Familiar with C, Java, Python, PHP. My key skills are shown above.

Education:
Kemerovo State University 2002 year.
Faculty of Economics - Economics and management at the enterprise

My Works:
Website implemented using React, Redux. Next, TypeScript, MySQL. This is a personal site with a blog, which presents my different projects, as well as a feedback form. I used functional components and hooks, server side rendering and client side rendering. There are authorization and admin panel. The site is adapted for different screen sizes.
It hosted on timeweb provider. : https://www.medvedkinsergey.ru
Github: https://github.com/meves/portfolio-next

My experience:
Aug 2020 — present time
Personal projects
Github: https://github.com/meves?tab=repositories
Website development using React, Redux, Next, TypeScript, MySQL. Used functional components and hooks, server side rendering and client side rendering.
